About

I'm a junior Full-Stack Software Engineer with hands-on experience building web and mobile applications using **React.js, React Native, and Next.js**. I enjoy creating clean, intuitive user interfaces and translating product ideas into functional applications.

On the backend, I work with **Node.js, Express.js, Java, and Spring Boot** to build RESTful APIs and support application logic. I've gained practical experience through hackathons, bootcamps, and academic projects, working collaboratively in team-based environments.
I'm fluent in **English and French** and motivated to grow in fast-paced engineering teams.

Skills

Frontend: React.js · React Native · Next.js · Tailwind CSS · Expo · Redux · Zustand ·

Backend: Node.js · Express.js · Java ·SpringBoot · REST APIs

Languages & Frameworks: TypeScript · JavaScript · Java · SQL

Databases: MongoDB · MySQL · PostgreSQL

Experience

Full-Stack Developer — Hackathon Project
Cameroon International Music Festival Hackathon

- Participated as a **Full-Stack Developer** in a team-based hackathon
- Contributed to building **KontriVibe**, a digital platform promoting Cameroonian music
- Implemented frontend components and supported backend API integration
- Collaborated under tight deadlines to deliver a working prototype
- Integrated basic **AI-driven features** into the application concept

Co-Trainer — React & React Native Development Bootcamp
React & React Native Dev Bootcamp (Cohort 5)

- Assisted in training **20+ participants** in **React.js and React Native**
- Explained core frontend concepts including components, state, and hooks
- Supported learners during hands-on coding sessions and debugging
- Helped participants understand industry expectations and best practices

Leadership

Public Relations Officer — Google Developer Group on Campus (GDGoC)

University of Buea | Aug 2025 – Aug 2026

- Serve as **PRO**, coordinating communication and outreach activities

- Engage potential sponsors to support community tech events
- Contribute to building a strong student developer community

Core Team Member — Hult Prize
Dec 2025 – Feb 2026

- Assisted in student orientation and awareness campaigns
- Supported participation and engagement in the Hult Prize program

Education

Bachelor's degree in Software Engineering
Currently pursuing my B.ENG program where I am in my 3rd year

Spoken Languages

- French (Native)
- English (Native)
